The abundance of outdoor activities will thrill the silent sport fans, while those looking for a little more R&R can enjoy a luxury spa experience, yoga in the vineyard, antique "treasure hunting", heritage tourism via 12 historical societies and museums, and the best of small town boutique shopping.

Music festivals, live stage performances, cozy coffee shops and old-fashioned ice cream parlors will remind you of how nice it is to enjoy the simple things in life. Visit Green Lake Country for a weekend, for a week or even a month. Then, Relax. Retreat. Repeat.

Nestled along the Fox River, only 20 minutes west of Oshkosh, a drive to Berlin will truly offer ample opportunities to relax and refresh in a community that cares. Whether your interests are golf, camping along the Fox, a family day at the Aquatic Center, or maybe just a walk along the Riverside Park River Trail, you will find Berlin is a great place to visit, live, work and play.

Golf at the beautiful Mascoutin Golf Course located just 8 minutes from Green Lake, 27 well groomed holes await to challenge golfers of all abilities.

Berlin's accessibility to the Fox River provides opportunities for a leisurely day of canoeing, kayaking, boating or fishing. One of the few rivers in the world that runs north, the Fox is truly a sport enthusiast's paradise. From Berlin, boat anywhere upstream by lockage through the renovated Eureka Locks, locally funded and operated by the Berlin Boat Club. Whether launching your boat at Berlin's Riverside Park or the Berlin Locks there is no launch fee!

Berlin's Riverside Park, boasts one of the best campgrounds in the county featuring waterfront sites, electricity, fire pits, baseball fields, playgrounds, disc golf, volleyball courts (and dump station). Enjoy the serenity of the Fox or fish from your campsite. A short walk to Berlin's historic downtown will delight the inquisitive shopper or diner, as well as the lover of Wisconsin history.

Wildlife abounds as you bike, walk or run the Mascoutin Trail. Twelve miles of paths meander through three counties. With the trail head starting at Berlin, a quiet ride gives you the opportunity to view deer, geese, Sandhill cranes and other critters as you bike to Ripon and Green Lake. Birdwatchers delight in tracking local and migrant species alike.

Enjoying a relaxing view of Green Lake, Green Lake Conference Center, A day on the boat on Green Lake, Downtown Green Lake at Night, Daycholah Lookout

Green Lake is a scenic community nestled on the shores of Wisconsin's deepest natural inland lake. This quiet place to unwind is only 180 miles north of Chicago and 90 minutes from Green Bay, Madison and Milwaukee, and offers spectacular views and on-the-water recreation for all seasons.

During the summer there is an abundance of events and lake-based activities, from water and jet-skiing, to swimming, sailing, fishing, paddleboarding, camping and golfing. Taking a walk in our historic business district is a relaxing way to spend an afternoon, perusing through stores while enjoying a freshly brewed cup of coffee or an ice cream by the water.

The Green Lake Conference Center offers breathtaking views of the lake and fall colors from atop Judson Tower. Enjoy the natural scenery of Green Lake from one of the many bike trails or county beaches, have a family picnic in the parks, then freshen up and welcome the evening with fresh local food served up at one of our lovely restaurants (don't forget our Friday Fish Fry's). Lodging opportunities abound, from charming Bed and Breakfasts in historical properties, to lake side motels, cabins and cottages. Special to Green Lake is the Heidel House Resort and Spa, which houses 3 on-property restaurants, a world class spa, swimming pools, lake side rentals,

lobster bakes and pig roasts throughout the summer and, is also Travel Green Certified.

During the cooler months, you can cross country ski, snow shoe, take the kids ice-skating in the marina, or join the ice shanty villagers on the lake. For the winter adrenaline seekers, a snowmobile ride with friends on any of our groomed trails, or an ice boat lesson might open your eyes to a new fun sport.

Summer Concert Series at the Village Green, Vines & Rushes Winery, The Little White Schoolhouse, Watson Street Car and Motorcycle Show, Ripon College

T

he friendly and inviting city of Ripon is an active community set among historic buildings and well- preserved architecture from the late 19th century. City streets are dotted with eye-catching Victorian houses known as Painted Ladies. The bustling historic downtown features a variety of businesses in buildings whose architecture dates back to the 1860s. Take the walking tour of our city center to fully enjoy our beautiful architectural history.

The Friday Night Concert Series at the Village Green is a summertime favorite. Cookie Daze, is a wonderful family festival featuring crafts, games, kid-made rockets and, of course, cookies! During Septemberfest we celebrate the beauty of our fall season with live music, the Watson Street car and motorcycle show, a charity sponsored dog walk, local food vendors, and other fun filled activities for the whole family to enjoy. The beloved Dickens of a Christmas event kicks off the holidays the first weekend in December. The weekend features a quilt show, craft fairs, breakfast with Santa, tour of homes, enchanted forest, musical entertainment, and living windows. The living windows event which will occur on Saturday night in 2016 features downtown storefronts as they come alive with scenes of Christmas. Stroll along enjoying hot cider or hot chocolate, take a horse and carriage ride, and snack on roasted Chestnuts on this weekend that is guaranteed to create holiday memories for years to come.

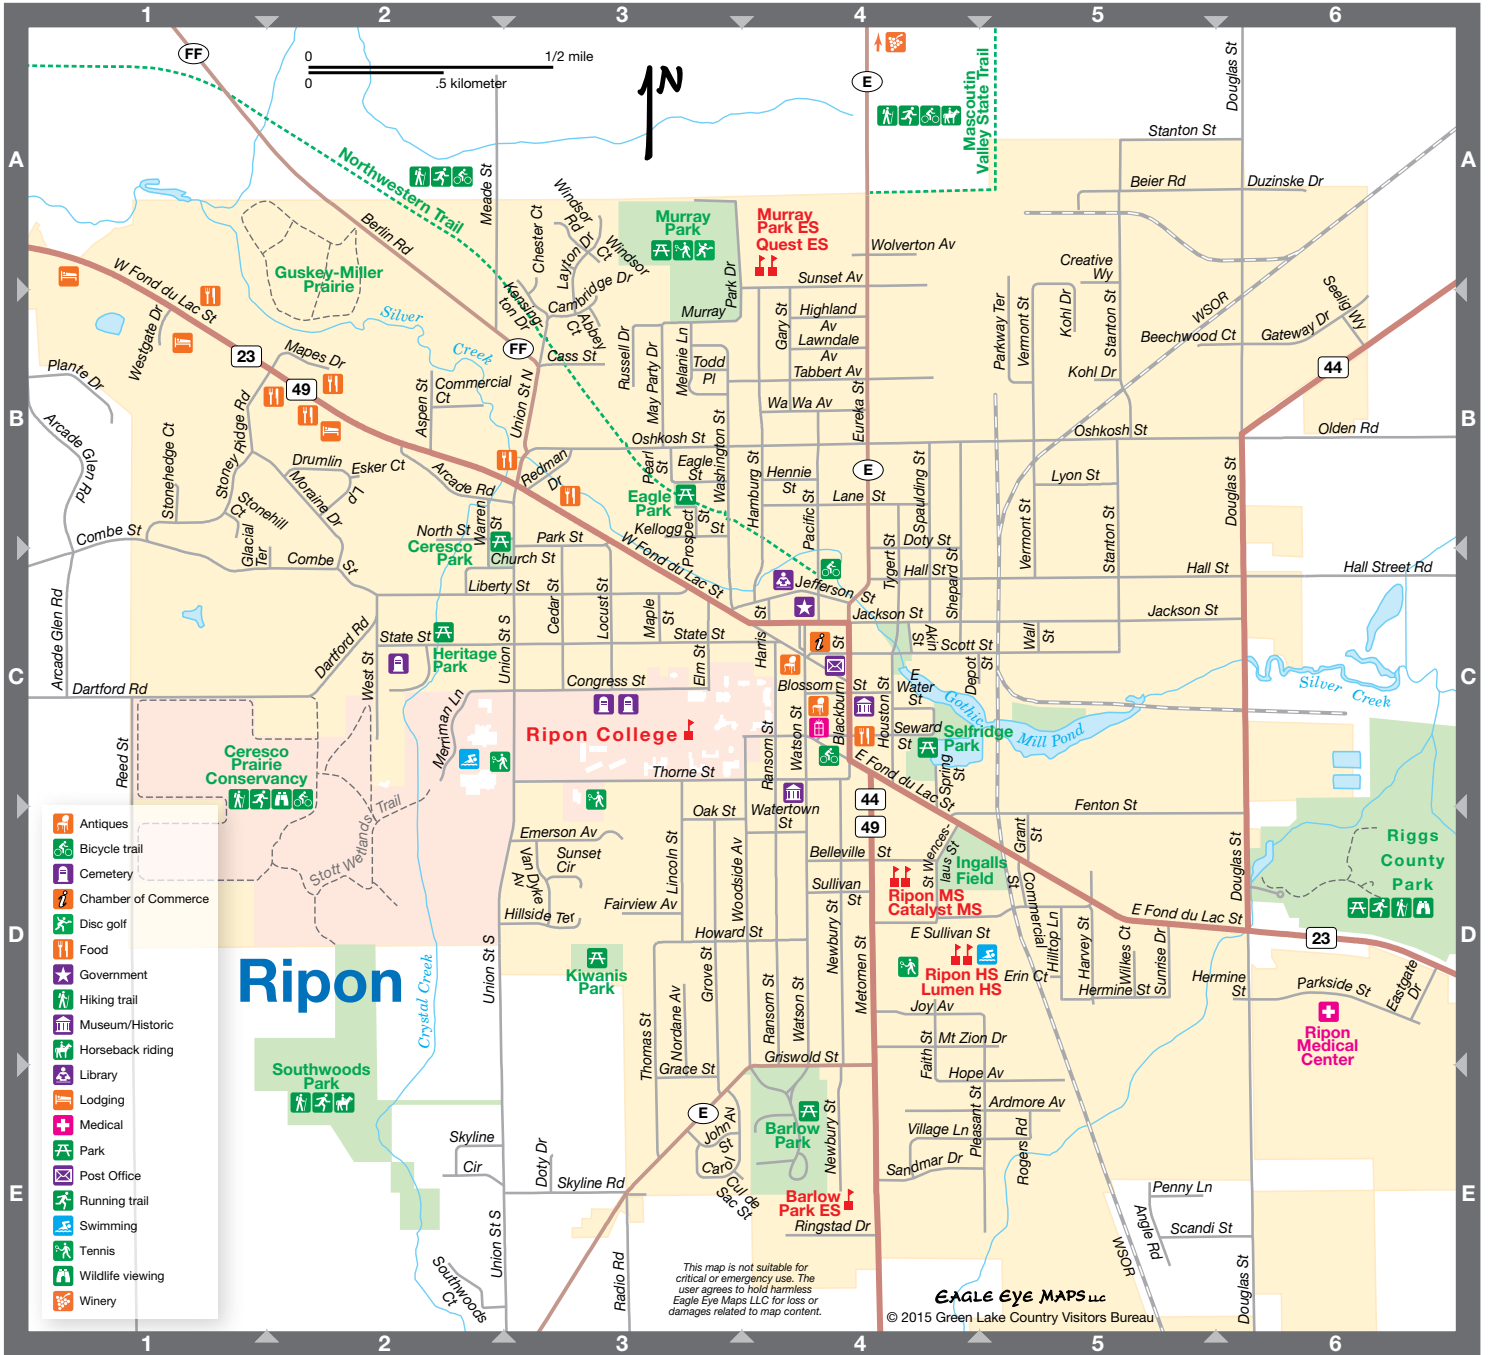

Ripon holds a special place in our nation's history: The Little White Schoolhouse, built in 1853, is the birthplace of the Republican Party, and a National Historic Landmark. This quaint and charming building witnessed the creation of a national movement that began on March 20, 1854. The Little White Schoolhouse is open for visitors to admire antique artifacts, to learn more about Ripon, and to understand what school life was like for children in the 1850s.

Ripon College, a nationally recognized private liberal arts and sciences school, founded in 1851, flows into the community with buildings dating back to the 19th century. The college provides cultural and sporting events open for everyone to enjoy. Renowned guest speakers visit the campus, and we are graced with performances by the Milwaukee Symphony Orchestra and brilliant productions by the Ripon College Theatre Department.

While visiting Ripon, make sure you explore our parks and trails (for walking, running, biking or cross country skiing). Visitors may also want to catch a movie at the historic Campus Cinema, founded by Ben Marcus in 1935. Ripon's Vines and Rushes Winery is a must-stop for wine enthusiasts. GOLF

A visit to Green Lake Country for golf lovers is simply a must. Four golf courses provide 81 holes, in which golfers will be challenged with breath taking layouts, rolling green hills, all cut through the Green Lake Country area.

Golf Courses Of Lawsonia

The golf courses of Lawsonia are recognized by Golf Digest as One of America's Best and Most Affordable Public Golf Facilities. Lawsonia offers two contrasting 18-hole layouts of magnificent design, astounding panorama, unmatched beauty, historical landmarks and abundant wildlife. In 2008 Lawsonia was voted Wisconsin Golf Course of the Year and is ranked second best course in the State. (36 holes)

■ for more information call 920.294.3320 or visit www.lawsonia.com

Tuscumbia Golf Course

Tuscumbia golf course also in Green Lake is Wisconsin's oldest golf course. This 18 hole course with an executive par 3 course maintains a wealth of tradition for excellence. From the majestic evergreens, maples and oaks to the magnificent park-like setting golfing here is sure to be an experience to remember. Tuscumbia is nestled in the charm of Green Lake, and is great for a novice, or seasoned professional. (18 holes)

■ for more information call 920.294.3381 or visit www.tuscumbiacc.net

Mascoutin Golf Course

Berlin is home to the Mascoutin Golf Course. Some 300 years ago, fire-worshipping Indians lived in the Mascoutin Village just south of Berlin. It was in this gently rolling setting that E. Lawrence Packard carved out a magnificent 18-hole championship golf course through century old trees. The original Red and White nines opened for play in 1976 and the Blue nine opened in 1999. All 27 holes appeal to men, women and junior golfers. (27 holes)

BIRDWATCHING

White River Marsh Wildlife Area
in Green Lake Country

Green Lake Country is blessed by its wealth of habitats for birds and wildlife, and many good birding locations have trails and are open to public access. Depending on the time of year, some places will vary considerably in what birdlife might be present, while other sites might provide great opportunities to find birds during any season. In general, the best time of year for birdwatching is spring and summer – especially April through July – when migrants are passing through, or individuals are engaged in territorial displays and breeding activities.

Over 260 bird species have been found in the area, including a nice variety of waterfowl, hawks and owls, woodpeckers, thrushes, sparrows, warblers and finches. Some of the favorites include Common Loon, American White Pelican, Wild Turkey, American Woodcock, Pileated Woodpecker, Scarlet Tanager, and Indigo Bunting.

In winter, one can sometimes encounter Rough-legged Hawk, Snowy Owl, Northern Shrike, Snow Bunting, and both crossbills. Some of the unusual or rare birds that have been found here have been Iceland Gull, Yellow Rail, Snowy Plover, Summer Tanager, Carolina Wren, Bohemian Waxwing and Harris's Sparrow.

Starting relatively close to the lake, there are a number of Green Lake Conservancy sites that can provide a good birdwatching experience. One of the best is Sunnyside Conservancy, which is located along Silver Creek Inlet (off of Lakeview Dr.), and contains several lagoons and about two miles of trails. Other conservancy hiking areas include Hammer's Trail and Winnebago Trail, both of which are located within the Green Lake Conference Center and overlook the lake. Norwegian Bay Conservancy is another excellent place to go, and has a long boardwalk that extends through a marsh to the shore of Norwegian Bay. More information about these and other conservancy sites can be found at the website: greenlakeconservancy.org

A little further from the lake are two very large state-owned properties that can provide wonderful birding opportunities. One is the White River Wildlife Area (located north of Princeton and west of Berlin), and the other is Grand River Wildlife Area (just west of Kingston). Another good option is the Snake Creek Wetlands Trail, which follows an abandoned railroad right-of-way between Swamp and St. Marie Roads. All of these sites are marked on the maps.

HISTORY BUFFS

Heritage Tourism means visiting our small, quasi-rural towns, meeting a local volunteer and engaging in a wonderful conversation with someone who is passionate about our past and is eager to share our stories with you.

By seeing photos of an old quarry, or holding the tools workers used, we understand their challenges, we put ourselves in their everyday lives, we imagine what their dreams must have been like. By learning how a butter churner works, to seeing doctors utensils of the early 1900's, to admiring elegant Victorian gowns and porcelain plates, or laughing at images through a stereoscope, you have the opportunity to leave the land of today and enter the world of yesterday. It's "Edutainment" at its best.

Amish Country

There are many small Amish businesses in the south east part of Green Lake County, as well as businesses supporting the Amish heritage. The Markesan and Kingston/Dalton Historical Societies can provide visitors with in-depth information on where these settlers came from, their traditions and customs

and how they have integrated into their neighboring communities, as well as what trades they are known for (woodworking, baking, cheese making, greenhouses to name a few).

Locate the Amish businesses below by finding their correlating number on the map.

Safe Driving Tips

The Amish community includes Marquette, Columbia, and Green Lake Counties. When traveling in the area many motorists are not aware of how to drive when they come upon a horse and buggy. In an effort to increase the safety of all those who use the roadways in this area, here are some safe driving tips.

- 1 Dim your headlamps when you meet a horse and buggy at night. As you might expect the horses have difficulty when they have to stare into bright headlights.
- 2 Give a wide berth when passing a horse and buggy. Driving closely to the horse may startle it, and cause the buggy operator to lose control.
- 3 Avoid rapid acceleration or unnecessary vehicle noises when passing or near a horse and buggy, loud noises may startle the horse as well.

Following a few simple tips as a motorist will help make our roadways safer.
